To Whom It May Concern:

Mike Jenner, Owner of Dragonfly Landscape Design, has personally been Celebrity Custom Homes' landscape designer/installer for over 13 years.

Mike is very knowledgeable of the various types of plant material, trees, and grass that are conducive to the Colorado region. He gives great attention to specific details and design that enhance the architecture of our custom and European-style homes, and he adds a personalized look to each exterior. All of the plant material is of the highest quality, and the installation crews pay special attention to every detail, including clean up. Mike and his crews are very polite and professional. Their expertise and level of customer satisfaction have been the keys to a successful business.

From the start of the project to our customer warranties, their prompt and professional response is, without a doubt, the best in the business. I would highly recommend Dragonfly Landscape Design to anyone in the market for a new or reconstructed landscape project.

Sincerely,

Kurt L. Miller
Owner/Vice President
